Frontend Development Project Agreement

1. Scope of Work

As the frontend developer, I will be responsible for developing the client-side interface of the website or application using:

- HTML5: Semantic and accessible markup.

- CSS3: Custom styles, responsive layouts, animations.

- JavaScript (Vanilla + jQuery where necessary): Interactivity, DOM manipulation, client-side validation, modal controls, etc.

- PHP (Frontend templates only): Includes, page structure templates, or any rendering required on the frontend layer.

Note: All backend integrations will be handled by the backend developer.

2. Design & Branding

The frontend will reflect a modern, responsive design, using the following base styling:

- Primary Color: #007BFF (Royal Blue)

- Secondary Color: #F8F9FA (Light Gray)

- Accent Color: #28A745 (Green for CTAs)

- Font: Poppins, sans-serif

- Layout Grid: 12-column responsive grid (Flexbox or CSS Grid)

UI Elements:

- Buttons with soft shadows and rounded corners

- Modal windows

- Animated form inputs and transitions

- Sticky navigation

- Responsive mobile-first approach

3. Project Timeline

Phase | Description | Duration

-------------------|--|--------

Frontend Development Project Agreement

Wireframe Approval | Structure & flow of the site | 2 Days

UI Design Mockup | If not provided, will create in Figma | 3 Days (optional)

Development Phase 1 | Static pages (HTML/CSS structure) | 5 Days

Development Phase 2 | JS Interactivity, modal, carousel, etc. | 4 Days

Integration Support | Work with backend dev for integration cues | 3 Days

Testing & Feedback | Cross-browser, device responsiveness | 3 Days

Final Adjustments | Final edits based on client feedback | 2 Days

Total Estimated Time: 15 - 20 Business Days

4. Testing & Compatibility

Devices: Desktop, Tablet, Mobile (Android & iOS)

Browsers: Chrome, Firefox, Safari, Edge

Screen Sizes: 320px to 1920px

Linting: HTML & CSS validation

Accessibility: WCAG 2.1 compliance (basic level)

5. Communication & Handoff

- Daily Updates via Slack, WhatsApp, or Email

- Weekly Review Meetings

- Code Handoff: Clear folder structure, comments, and documentation

- Collaboration with backend developer for API and form integrations

6. Deliverables

- All frontend files: .html, .css, .js, .php (template only)

- Documentation for frontend structure

- Responsive and interactive frontend

- Integration-ready HTML with form tags, input names, etc.

7. Payment Terms

Frontend Development Project Agreement

- Total Cost: [Insert Total Price]

- Milestone 1: 30% upfront

- Milestone 2: 40% after development phase 1

- Final 30% upon completion & approval

8. Out of Scope (Handled by Backend Dev)

- Database creation or queries

- API development or server-side logic

- User authentication, login systems

- Payment gateway setup

9. Agreement

By signing this document, both parties agree to the terms listed above.
